Awesome way to make my background cycle through different backgrounds. What makes it awesome is that the developers added 3D support. As it's a 2D app it doesn't need 3D support to work. I am able to take advantage of many 3D backgrounds. I can't get enough of it! +1 5 RhisLaRoux Nov 27, 2017 Excellent!!! Fun but not ready for prime time yet. It will definitely keep you entertained for a little while. +1
