The Cloud Drive Storage Service connects to the cloud storage service of your choice (Amazon, Google, Microsoft, Dropbox, etc.) and then redirects your applications requests to your data stored in the cloud storage. The service works via iSCSI as a Windows file share. The service allows you to access cloud storage as if it were a physical disk drive, a virtual machine, a network file share or a local file system. The Icon Pack has 19 different icons that were created in order to give your dock application a different look. However, they all follow the same style, so you will be able to use them without any problems. Each icon represents one of the following actions: - the creation of a new directory - the creation of a new folder - the modification of a file - the modification of a folder You can use them to modify the regular appearance of dock files and folders, by giving your favorite icons a different look. In addition, this Icon Pack also provides you with 20 desktop themes that will give your desktop a different look. This Icon Pack was designed using Mac OSX 10.11.5. Each icon can be modified by using the MACRO Command, available from the Edit menu, located in the top menu bar. To use the MACRO command, you need to select the icon you want to modify, right-click on it, select from the menu that appears and then click on the MACRO command. This will open the settings menu, from which you can set the action that you want to apply to the icon. You will be able to use this Icon Pack with any dock application available for Mac OSX, such as Fantastical, Finder, iFunBox, Prowler, Tweetbot, Quicktime Player, etc. Note: In order to make sure you don't modify the icon's original name, you can rename the icons using the Icon Set Editor, located in the folder Icon Set Editor. Note 2: Icon Set Editor is a free tool you can download from the Mac App Store. More information: If you want to see all the available icons, you can view the complete Icon Set Editor set at: Note 3: Icon Packs 19 is provided as a free download.
