Psyche Modular Music Creation Studio is a complex application that facilitates a virtual studio wrapped in a tracker interface for creating music using native synths and effects, VST2 plugins, as well as an internal sampler with effects and Wave files through the sampler. Customizable setup and initial configuration The full package includes the Microsoft Visual C++ 2008 runtime, open-source plugins from the developer, free VST Pack plugins, presets for selected plugins, project documentation, UI skins, demo songs, together with the Lua tool and example scripts. At startup, you can configure Psyche settings regarding visual options (e.g. pattern and machine view), default directories (e.g. song, Wave, instrument, plugins, VST folders and bridging), input and output, along with MIDI controllers. Manage and save patterns, instruments and machines Psyche Modular Music Creation Studio enables you to export and import patterns, instruments and machines, as well as to save and open files with songs (PSY), FastTracker II Songs (XM), Impulse Tracker Songs (IT), Scream Tracker Songs (S3M), and original MOD format songs. Moreover, projects can be rendered as WAV files. It's possible to edit song properties when it comes to the title, composer/credits, tempo, lines per beat, ticks per beat, extra tick per line, extended comments. You can manipulate patterns, blocks and sequences (e.g. cut, copy, paste, delete, clone), switch to fullscreen mode, manage generators, effects, instruments and waves, as well as use rich editors for the instruments and Waves. The plugin cache can be regenerated with one click. Furthermore, you can monitor the CPU/DSP performance and MIDI input (core status, flags, channel mapping). Evaluation and conclusion Surprisingly, it had minimal impact on the computer's performance in our tests, running on low CPU and RAM. No error dialogs popped up and it didn't freeze or crash. To conclude, Psyche Modular Music Creation Studio is a comprehensive software tool dedicated to experts users who want to create music using various plugins. Read More Eagle Farm Eagle Farm is a large village in the London Borough of Barnet that lies to the south of the A10 and the A41. Its name comes from the manor, which was called Eafa meaning Eoflamme, and the Saxon place names indicate there may have been a Saxon settlement there. It lies in the eastern part of the Metropolitan Green Belt and is a conservation area. It has its own secondary school, a state primary school, and a pre-school. The houses are mostly terraced and there is a large Methodist church, and an old Anglican church which was converted into a house in the early 20th century
